

Course Information

The purpose of this two day course is to prepare nurses to provide quality care for patients with advanced illness at the end-of-life.

Course includes

- **14.50** contact hours for attendance on both days
- All course materials
- Breakfast and Lunch on both days

Course Objectives

At the end of this course, participants will be able to describe the role of the nurses in:

- Providing palliative nursing care
- Utilizing the principles of pain and symptom management for patients with advanced disease
- Addressing ethical issues that occur at the end-of-life
- Using communication techniques that improve end-of-life care.
- Facilitating health adaptation to loss for patients, family and health care providers
- Providing care at the time of death

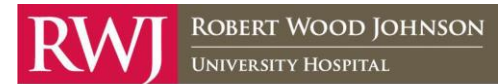

The End-of-Life Nursing Education Consortium (ELNEC) project is a national end-of-life educational program administered by City of Hope (COH) and the American Association of Colleges of Nursing (AACN) designed to enhance palliative care in nursing. The ELNEC project was originally funded by a grant from The Robert Wood Johnson Foundation with additional support from funding organizations (Aetna Foundation, Archstone Foundation, California Health Care Foundation, National Cancer Institute, Oncology Nursing Foundation, open Society Institute and Department of Veterans Affairs). Further information about the ELNEC project can be found at: www.aacn.nche.edu/ELNEC
