

LECTURE

You are invited by your Merck representative Danielle Levatino to a medical education program for health care professionals and health care business professionals only that will focus on:

Delivering Quality Care to Diverse Populations

Mary Catherine Beach

Core Faculty, Welch Center for Prevention, Epidemiology, and Clinical Research
Johns Hopkins

Mary Catherine Beach, M.D., M.P.H. is a general internist and Associate Professor in the School of Medicine at Johns Hopkins University. Dr. Beach is the recipient of numerous awards and honors for her research program on patient-clinician communication, which is particularly focused on communication in the primary care setting and with marginalized populations such as HIV and sickle cell disease.

Learning Objectives

- Present evidence of racial/ethnic disparities in health care
- Discuss the impact of disparities, cultural competence, and patient-centered focus on health care quality
- Provide organizational strategies to achieve cultural competence and patient-centered focus and address disparities

Date

Thursday, September 25, 2014

Time

6:00 PM EST

Location

Panico's
103 Church Street
New Brunswick, NJ 08901
(732) 545-6100

To comply with certain federal, state, and local laws that prohibit or limit the provision of meals to health care professionals and/or state employees, Merck does not offer a complimentary meal to individuals who are subject to such restrictions. Attendees to whom such restrictions apply should not avail themselves of the complimentary meal. The venue will, however, provide an opportunity for the meal to be charged to an attendee's personal account (eg credit card). If you are unsure of your state's laws and regulations, we ask that you please check prior to attending this event.

Merck is pleased to sponsor this program to provide information consistent with FDA guidelines. This program is not an accredited CME program and is not designed to meet any training and/or educational requirements.

The speaker for this program is speaking on behalf of Merck.
