ASCO Gastrointestinal Oncology Updates

Saturday, March 3, 2018

7:15am to 12:30pm

Malcolm Forbes Amphitheater
Morristown Medical Center
100 Madison Avenue
Morristown, NJ 07960

Join Us!

On Saturday, March 3, a multidisciplinary gastrointestinal oncology team of experts will be discussing updates, practice changes and the latest advances in the treatment of gastrointestinal cancers.

Presentations will include information on:

- › clinical trials
- › immunotherapy and novel agents
- › impact of novel agents on immune system: assessment and management of these toxicities
- › biomarker-based therapy
- › clinical case studies

Learning Objectives

At the end of the session, participants should be able to:

- › understand new drug therapy for GI/pancreatic/hepatobiliary cancers
- › discuss impact of novel treatments on the immune system and toxicity management
- › review biology of pancreatic cancer and treatment that targets pancreatic cancer metabolism
- › recognize the newer treatments and techniques that can be part of the management of patients with gastrointestinal malignancies

To register or for more information, please call: 1-800-247-9580

Accreditation

Atlantic Health System designates this educational activity for a maximum of 4 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity. Atlantic Health System is accredited by the Medical Society of New Jersey to provide continuing medical education for physicians.
