remarks.

Oncology Nursing Education Symposium

Target Audience: Nurses from all
settings, Pharmacists, Physical
Therapists, Respiratory Therapists,
Student Nurses and Faculty.

Purpose: This program will explore the
diverse topics in care of the Oncology
patient. The emphasis will be on client
centered needs emphasizing critical
thinking for care that reflects best
practice.

Learning Objectives:

After attending this program the
participant will be able to:

1. Describe the rationale for surgical intervention for patients with cancer utilizing NanoKnife Technology.
2. Describe the pathology, diagnostics and treatment for Pancreatic Cancer.
3. Describe the genetic influences related to cancer.
4. Describe the impact of the ACO on healthcare economics and Oncology Nursing.
5. Describe the advances and new therapies in the management of patients with lung cancer.
6. Demonstrate competence utilizing the BBraun PCA Pump for administration of “HIGH Dose” analgesia.
7. Describe the process for safe administration of oral chemotherapy.
8. Describe new breast imaging technologies.
9. Describe the genetic syndromes present in Gynecology Oncology patients: surgical treatment and chemotherapy.
